

BEHIND THE LOGO

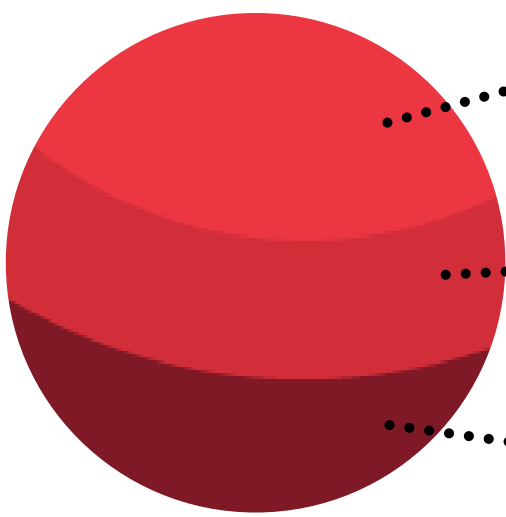

The Radboud Center for Decision Science is an interfaculty initiative to promote decision science and its application to society. Our logo symbolises the aligning of different fields of research for these purposes.

3 I'S APPROACH

INVESTIGATE

Through interdisciplinary research and collaborations, we aim to investigate the mechanisms, processes and consequences of human decision-making.

INTEGRATE

The generation of evidence is integrated into, and guided by, efforts (including policies) to understand and address pressing societal and environmental challenges.

INFORM

Policymakers and relevant stakeholders are informed of emerging decision science research to ultimately help guide policy and practice.
